

## Creative E-Learning for Healthcare

## Our Healthcare E-Learning Courses provide an engaging way to:

- Reach the large number of practitioners who need training
- Act as a pre-learner to, reminder or refresher of face to face training
- Provide interactive individual, group, or team learning
- Use as individual programmes or to complement each other

Meeting the CQC's Essential Standards in Primary Dental Care

Manager Induction Standards

Kwango delivers high quality e-learning to help local authorities, trusts and agencies achieve greater efficiency and cost effectiveness.

## What do our customers say about our e-learning?

“The MCA, Safeguarding and Dementia E-Learning are fantastic! The various photo-animated case studies really do the job of covering the Community and NHS sectors and getting staff thinking about all the issues. The monitoring of our 8000 learners for usage and quiz scores gives us extremely useful information for CPD purposes.” Doncaster & Bassetlaw NHS Foundation Trust

“In 2009 your Safeguarding Children and Adults E-Learning programmes became mandatory for all staff up to and including the Chief Executive.” NHS Northamptonshire

“Thanks for coming to launch the new programmes. We use them as pre-learning, refresher and awareness raising for 000’s of learners across all our partner agencies. Along with our NHS Trust we are pleased to commission Stroke Pathway E-Learning.”

Gloucs/Gloucs Hospitals NHS Foundation Trust

“Better Health, Better Lives is an excellent tool and I recommend its use within all health and social care as well as educational settings” St. Georges NHS Trust, South West London

“The Safeguarding Adults and MCA E-Learning programmes are excellent and will help us in both raising awareness with a huge audience in our authority and acting as a refresher for staff attending training. Kwango E-Learning has clear messages and is simple to use with really good scenarios which give a sense of reality and usefulness to the programmes for the practitioner.”

Herts/Herts Partnership NHS Foundation Trust.

“The DOLS e-learning covers all the most significant elements of DOLS and allows staff at all levels to work at their own pace. It is an especially good tool for staff working on night duty who find it difficult to attend training during the day. The purchase process has been speedy and can be recommended.”

NHS North Yorkshire & York
